

ANKIT DHALL

adhall@student.ethz.ch | ankitdhall.github.io

EDUCATION

ETH-Zürich, Switzerland 2017 - present

Master of Science in Robotics, Systems & Control

Areas of interest: Computer Vision, Machine Learning and Robotics

Coursework: Computer Vision, Machine Learning, Probabilistic AI, Vision Algorithms for Mobile Robotics, Robot Dynamics | Beginning Feb. 2018: 3D Vision, Perception and Learning for Robotics, Machine Perception, Autonomous Mobile Robots

Vellore Institute of Technology, Chennai, India 2013 - 2017

Bachelor of Technology in Computer Science & Engineering

Thesis: LiDAR-Camera Calibration using 3D-3D point correspondences  under [Prof. K. M. Krishna](#), RRC, IIIT-H

CGPA: 9.7/10, ranked **2nd out of 147** students in department

Teaching Assistant - *Data Structures and Algorithms*, Fall 2015

St. George's College, Mussoorie, India 2004 - 2013

Class 12, **95.50%** in *Indian School Certificate Examination(ISC)* 2013

Class 10, **94.16%** in *Indian Certificate of Secondary Education Examination(ICSE)* 2011

EXPERIENCE

Academic Motorsports Association of Zurich (AMZ)  **Computer Vision**

Formula Student Driverless 2018

November 2017 - present

- Working on developing the computer vision pipeline for robust and accurate detection and location estimation (in 3D) of traffic cones for Formula Student Driverless 2018 season.

Robotics Research Center, IIIT-Hyderabad  **Researcher/Bachelor's thesis**

Advisor: [Prof. K. Madhava Krishna](#)

January 2017 - May 2017

- Proposed a novel pipeline and experimental setup to find accurate rigid-body transformation for extrinsically calibrating a low-resolution LiDAR (VLP-16) and camera(s) using 3D-3D correspondences. The ROS package has been forked widely and usage can be found at: https://github.com/ankitdhall/lidar_camera_calibration .

Autonome Intelligente Systeme, University of Freiburg  **Researcher**

Advisors: [Prof. Wolfram Burgard](#), [Abhinav Valada](#)

June 2016 - August 2016

- Created a Mixture of Deep CNN Experts for robust semantic segmentation by adaptively fusing complementary modalities (RGB and depth, for instance). Implemented segmentation on NVIDIA TX1 and generated way-points for an all-terrain vehicle that autonomously navigated ~4.5km of rough, forested terrain.
Project page: <https://deepscene.cs.uni-freiburg.de> 

Microsoft Corporation - Campus Connect **Software Developer**

Mentor: [Akanksha Gupta](#)

June 2015 - September 2015

- Created a music discovery engine using Flask that fetches queries and visualizes the data through D3.js. The engine allows search by location, artist, and intrinsic song parameters. Judged as the winning idea and implementation at Microsoft Campus Connect and Most-Popular vote at Yahoo! Accenture Innovation Jockeys 4.

University of California, Santa Cruz + Stanford Research  **Researcher**

Advisors: [Prof. James Davis](#), [Dr. Rajan Vaish](#)

January 2015 - June 2015

- Collaborated to improve vision algorithms by introducing crowdsourced human cognition in the pipeline. Re-ordered images for human workers based on confidence scores to improve system accuracy.

LANGUAGE SKILLS

Hindi	Mother tongue
English	Bilingual proficiency (TOEFLiBT: L:30 R:30 W:30 S:26 = 114/120)
German	Elementary proficiency (Basic-German Level A1.1 - DEUTSCH-UNI ONLINE )

TECHNICAL SKILLS

Programming Languages	C++, Python, 8086Assembly, webdev
Libraries, Frameworks & APIs	OpenCV, basic ROS, basic Caffe
Miscellaneous	Adobe Photoshop, NVIDIA TK1 & TX1, Latex

MOOCs AND OTHER COURSES

- Introduction to Probability The Science of Uncertainty 6.041x, edX Honor Code Certificate - *MITx* 
- Machine Learning, Coursera Honor Code Certificate - *STANFORD UNIVERSITY* 
- Artificial Intelligence CS188x - audited online and on edX - *UNIVERSITY OF CALIFORNIA, BERKELEY*
- Discrete Optimization - audited on Coursera - *UNIVERSITY OF MELBOURNE*

ACADEMIC AWARDS AND ACHIEVEMENTS

- **DAAD-WISE Scholarship 2016** to pursue research in Germany; one of the **160 students from all over India**
- Awarded for academic excellence for **2013-14, 2014-15, 2015-16 and 2016-17**
- Voted most popular project at Yahoo! and Accenture's Innovation Jockeys 4 and one of the 10 finalists out of more than 2500+ teams across India and invited to Bangalore to present our idea
- **Music Discovery** engine judged as the **winning idea** and **implementation** at **Microsoft Campus Connect 2015**; Official media interview piece on InnovationJockeys website 
- On-site **Finalist at ACM ICPC**, Asia Regional, 2014 and **10th** in **GRIET Code**, 2015 coding competitions
- Awarded for **excellence** in **Computer Science** and **Physics** in high school (ISC)
- **School topper** in the ICSE examinations and **awarded scholarship** for 2011 and 2012

LEADERSHIP AND EXTRA-CURRICULAR ACTIVITIES

- **Head of Design and Member of the Editorial Board** at St. George's College, 2011-2013
- Member of the **Organizing Committee** at VIT Chennai Model UN, 2015
- Represented **college**(2013-2015) and **high-school**(2010-2012) in **tennis**
- **Scrabble finalist** at Saarang'15, IIT-Madras and **winner** at Literario'14 and Vibrance'15 at VIT Chennai
- **Active organizing member of the Quiz Club** and **podium finishes** in various intra-college quizzes
- Stood **4th** in the **Limca Book of Records Quiz**, Regionals, 2011 among **180+ competing teams**
- Played **rhythm guitar** in the school band, 2011-2013
- **Designed brochures, t-shirts, invitations** and **head of design** at various **inter-school events** in high-school
- Actively involved in the **Social Welfare Club** (2012) in high-school
